

tourbillon stand
assembly

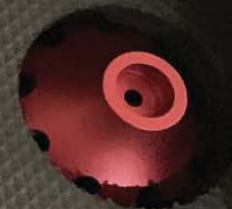

mozaxos & sins
SINCE 1981

top compartment - shelf and hardware

shelf parts

bottom compartment - legs and base

logs and base

bag with 4 rollers

Step 7 - push-on the
4 rollers into the base foot

A close-up photograph of a red metal frame. The frame consists of a central vertical bar and two horizontal bars extending from the top. On each side of the central bar, there are three silver-colored bolts protruding horizontally. The bolts are arranged in a vertical line, with the top bolt being the longest and the bottom bolt being the shortest. The background is a dark, textured carpet.

step 2 attach the legs
to the base, make
sure the curve of the legs
faces towards the rear.

stop 3
attach the side plates
with the 3 bolts

A close-up photograph of a red metal top section of a table. The top section is a thick, red-painted metal plate with two large, irregularly shaped cutouts. It is being attached to two legs. One leg is painted light blue and the other is painted dark blue. Four silver-colored bolts are visible, two on each leg, securing the top section. The background is a light-colored wooden floor. The text "step 4 attach the top section to the legs with the 4 bolts" is overlaid in white, stylized font across the center of the image.

step 4 attach the top section
to the legs with the 4 bolts
